

Green Play Dough

Take a shamrock-shaped cookie cutter and cut out some shamrocks from green play dough. You can either buy play dough from the store, or you and an adult can make your own play dough.

Ingredients Needed:

- *1 cup flour*
- *½ cup salt*
- *½ cup of water*
- *Food Coloring*

Mix ½ cup of water with a few drops of food coloring and mix in a bowl.

Add the colored water to the flour mixture and knead it until it feels like play dough.

Add a little more flour if it is too sticky.

Press it out on some wax paper and cut out your shapes and then let them dry.

You can also use cookie dough that is green and add green sprinkles on top, so you can enjoy them after they are baked and taken out of the oven!
